

Meet Sebastian Quintero Habitat Homeowner Biography

Sebastian is a sophomore in college, who volunteers every Sunday at his local church, helping out around the food pantry and the daycare. He also works at Harlan Bakeries. In his free time, he enjoys playing soccer, running, and spending time with his three brothers and other close friends. His favorite thing about living in Indianapolis is being close to downtown, where he can find everything he needs. He currently lives in an apartment with his best friend.

I'm excited to be a homeowner, to have my own home and share my house with my mom.

What homeownership means for my family:

Responsibility, and being more of a family in our house

What goals I will set once in my new house:

Motivate my family to keep it clean, and maintain my house with good care

What I am most looking forward to in my new home:

I'm motivated to have my own house and share it with my mom
