

# 2022 community report

Reach **Out**,  
Build **Up**

# letter from the CEO & Board Chair

In 2022, we commemorated 35 years of providing stability, strength and independence through attainable homeownership. The individuals and families who invited us into their lives to support their efforts to purchase their first home allowed us to carry out our mission of bringing people together to build homes, communities and hope. We have provided **1,624 housing solutions** in Hamilton, Hancock, Hendricks and Marion counties, as well as internationally through our partnerships with Habitat for Humanity affiliates abroad.

In our 35th year, we reflected on the thousands of Central Indiana residents who have responded to the call to love their neighbors and proved that the heartbeat of our work truly is **bringing people together**. By donating financially or through our ReStores and volunteering to walk alongside homebuyers as they built their homes, they demonstrated to our community that working together provides hope, an intangible but equally important part of our mission.

While we enjoyed looking back, we also set a new three-year strategic plan to press forward and increase our impact. We set an historic goal to provide 300 housing solutions by the end of 2024: **the most solutions ever in a three-year span**. The affordability gap for first-time buyers is increasing and the demand for our mission has grown.

One of the exciting additions to our global work was the new partnership with Habitat for Humanity in Kenya. We have been a long-time partner of Habitat para la Humanidad El Salvador and now will work closely with Kenya as well. Last year, we participated in Habitat for Humanity Kenya's 40th anniversary, helping them build four homes through a funding collaboration. We hope to send a team to work alongside our new friends soon as our Global Village trips begin again.

We count on you to help us turn dreams into reality. Thank you for responding and partnering with our mission in 2022.

*Jim Morris*

Board Chair

# reaching for **big goals**

Kenetra Woods reached for two big goals in 2022. One was to graduate from college and the other was to own her first house so that her children, Emari and Deja, would have something that she never had – a home. Last year, Kenetra graduated from Indiana Wesleyan University in April and moved her family into their new home in December!

When Kenetra applied to Habitat's homeownership program she shared, "I am most looking forward to being able to not worry about moving. I move every year and honestly, it's exhausting. My daughter is five years old, and I have a son who is 17, autistic and nonverbal. I'm excited to have a home where he can have a space he is comfortable in. Finding a place to live has been challenging. Many properties do not have vacancies, or the rent is out of my price range."

Now that the family is settled, Kenetra already set new goals for herself. She would like to pay off her mortgage in 15 years. "I believe that would be a great step toward financial freedom." After a semester of classes in financial literacy and home maintenance, as well as helping build her own home, Kenetra is well on her way. And, she has worked hard to get here, "You have to qualify, you have to take the classes, and you have to be able to roll up your sleeves and put in the work."

At Greater Indy Habitat we are humbled and honored to walk alongside people like Kenetra and families like the Woods. It's what helps us stay focused on finding land we can afford to buy with the support raised from our donors and sponsors. It's what helps us reach out to the community and organize thousands of volunteers every year to work with our construction team. And it's what makes teaching our homeowner classes every week so fulfilling. Kenetra is one of 22 families in 2022 who will now have a home they can afford, maintain, and pass down to the next generation, thanks to the belief donors including you have in our ability to make homeownership a reality. In Kenetra's words, "turning the key and walking in and saying, 'Wow, this is mine' is what it's all about."

***"Homeownership is more than having a place to live. It's being able to wake up knowing that your family has something that they can call their own. It's pulling up to your home and turning the key to an investment that is your own. It's not worrying about your lease expiring and trying to figure out where you're going to move next. It's being able to have a place that is truly home."***

**– Kenetra Woods, 2022 Habitat Homebuyer**

# building communities for over 35 years

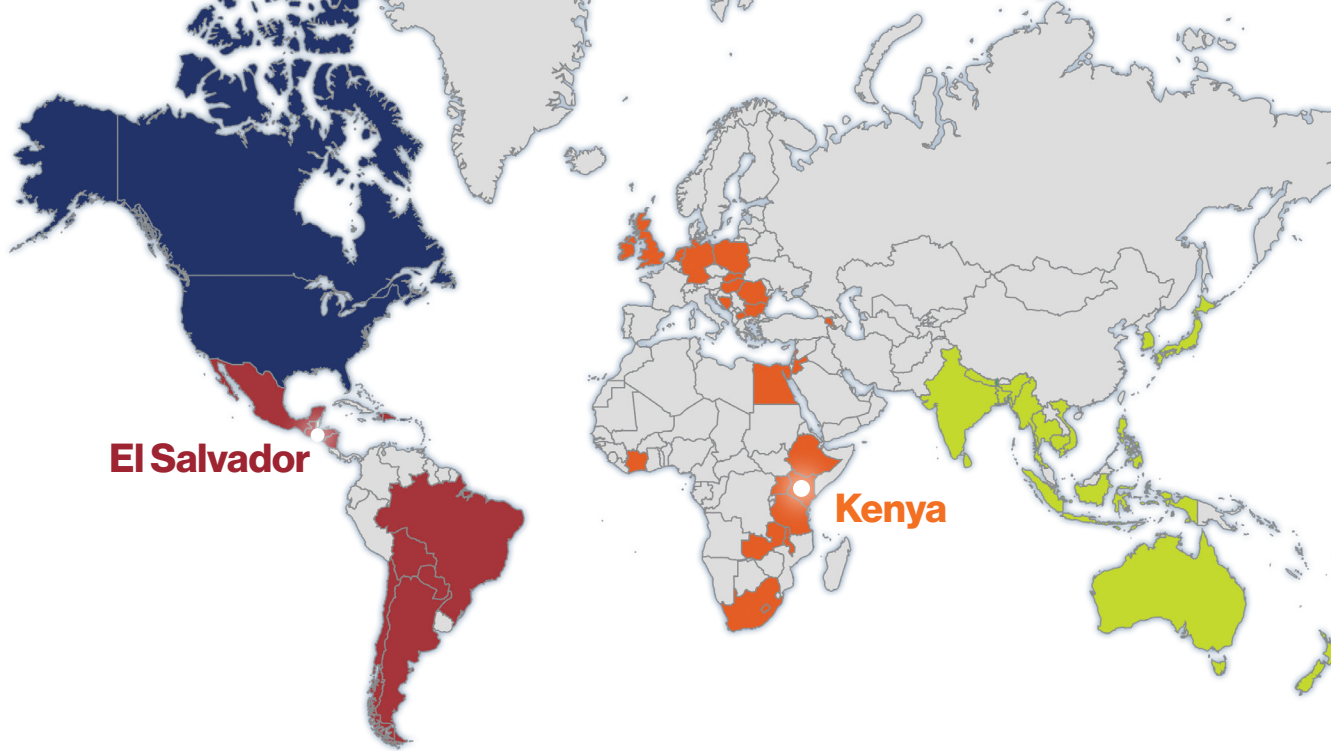

In 2022, Greater Indy Habitat for Humanity commemorated our 35th year as donors, sponsors, volunteers, and numerous community partners answered the call to the heartbeat of our mission: coming together to build homes, grow communities, and inspire hope. The families who experienced first-time homeownership or a much-needed home repair, both locally and internationally, join thousands of households impacted through our 35-year history.

|               | Total Housing Solutions  | Homes Provided | Home Repairs | Paid Off Mortgages | International Homes Provided   |
|---------------|--|----------------|--------------|--------------------|--|
| in 2022       | 53   | 22             | 7            | 24                 | 24   |
| over 35 years | 1624   | 802            | 238          | 178                | 584  |
|               | (including homes provided, home repairs & international homes) |                |              |                    | (through partnerships & funding to Habitat for Humanity International affiliates in El Salvador and Kenya) |

Frank & Patricia Hartman, devoted Habitat supporters for three decades, commemorated their 50 years of marriage and Habitat's 35 years in Indianapolis by inviting neighbors and friends to build the walls of a Habitat home right outside their doorstep.

# 2022 launches a strategic plan for **growth**

**We will provide 300 housing solutions by 2024:**

- 🏠 **100 homes provided regionally**
- 🏠 **100 homes repaired**
- 🏠 **100 homes provided internationally**

## reaching new communities through our tithe program

Our tithe program supports carefully chosen building and shelter projects in other countries. Our program began many years ago with our partnership with Habitat para la Humanidad El Salvador. We have since embarked on a new partnership with Kenya and look forward to working alongside them as we begin our Global Village trips. In 2022, we collaborated on a fundraising initiative with Habitat for Humanity in Kenya to help them build four new homes. To date, over \$2 million in tithes have been collected to support these important programs.

# 584 homes

**provided internationally**

The need for attainable homeownership in the Indianapolis region has never been more urgent. In 2022, we launched a three-year strategic plan to refine and retool our efforts to address the expanding gap in racial inequalities and increasing construction and land costs, among other issues.

# 2022 at the ReStore

**\$3.6 million** in total sales

We proudly serve as a valuable community resource. Our ReStores offered home goods at a price below retail, saving our shoppers an estimated \$10.8 million in 2022, allowing them to allocate more funds to essential needs.

**6,225** commercial & residential pickups  
**12,080** donation drop-offs

Habitat trucks collected over 1,000 tons of merchandise, giving it a second life and generating revenue, rather than filling landfills.

**75,595** customers **346** volunteers

Each day, an average of 320 individuals, including donors, shoppers, and volunteers, visited our four Greater Indy locations. Thanks to the dedication of 346 volunteers, we continue to drive our mission forward.

**50+** employment opportunities

In 2022, ReStores created over 50 meaningful employment opportunities, contributing to the betterment of our community.

## 2022 featured ReStore partners

# grounded in gratitude

Indiana University Health

## sponsor investment builds financial stability

Owning a home gives a family a sense of strength and stability. A home serves as a haven and a neighborhood with homeowners builds a sense of community. Corporate partners play a vital role in supporting Habitat as we reach out to bring people together to build homes, communities and hope in Greater Indy.

Our Future Builders (\$125,000+ sponsors) and Dream Builders (\$100,000 sponsors) promote their corporate social responsibility goals and work toward a community where everyone has a safe and affordable place to live. Their financial and volunteer support provides financial stability for Greater Indy Habitat to serve our homebuyers with high-quality, affordable homeownership possibilities while maintaining organizational sustainability despite rising construction costs.

Thank you to Future Builders Allegion, Carrier, Delta Faucet, dormakaba, Eli Lilly, Indianapolis Neighborhood Housing Partnership (INHP), OrthoIndy Foundation, and our annual Women Build, as well as our 2022 Dream Builder Indiana University Health. These nine community partners raised a total of \$1,162,242 and have collectively donated an incredible \$11,486,805 through a combined 127 consecutive years of giving.

***“As Indy Habitat for Humanity’s longest running home-build sponsor, every home built has a Carrier system that helps Habitat’s homeowners enjoy healthier, more sustainable and efficient homes for total comfort and total happiness. We salute Habitat for its work building stronger communities and are proud to play our part in this powerful mission.”***
