

Attainable Homeownership Tax Credit

You can receive a state tax credit and support Greater Indy Habitat Women Build. **All donations need to be made to Habitat for Humanity of Indiana first.** Once the donation is received, it will be added to the Women Build fundraising page and attributed to the builder you are supporting. **Please include the name of the builder you are supporting in the memo on the check or online donation form.**

How does it work?

Tax credits may be used to offset individual state income taxes or business taxes in the tax year the donation is made beginning in 2024. When you donate to Habitat, you can receive a tax credit worth 50% of your donation, up to \$10,000 in tax credits. This means that a donation of \$2,000 could result in a \$1,000 tax credit for you or your small business. **Gifts through the tax credit program must be a minimum of \$500.**

The increased funds from this initiative will enable us to:

build
more
homes

More funding allows us to increase production which means more families in our community can achieve their dream of homeownership.

partner
with more
families

Your support helps us extend our reach and support more first-time homeowners. We can walk alongside more families equipping them with the tools and education to prepare for homeownership.

create
better
outcomes

Research shows that a safe and stable home improves the health, education, and overall well-being of children.

All donations need to be made out to Habitat for Humanity of Indiana. They are our state support organization and serving as a liaison between affiliates and the Indiana Department of Revenue. Habitat of Indiana will then disburse donations to Greater Indy Habitat.

There are specific steps you need to take to claim the tax credits. To receive tax credits with your Women Build donation, visit indyhabitat.org/tax-credit or contact Maureen Parsons at 317.777.6140 or mparsons@indyhabitat.org.
