

meet the Joyce family

Dawn is a surveillance specialist with Allied Universal. She is a proud mother of three children: Djhanea (21), Blessing (10), and Bryant (10).

“ Homeownership means everything to me and my family. It's about creating stability and giving us a lasting place to call our own. Living in a small apartment with my two younger children, while my oldest is away at college, has its challenges.

There's limited space, no big yard, and not enough storage. Owning a home would change that. I'm excited to create a comfortable, loving space for my family and build generational wealth. **”**

“It's been a tough journey as a single mother, but I'm determined to secure a bright future for my children and find pride in everything we achieve together.”
