

# meet the Davis family

---

**Amber is a medical assistant with Eskenazi Health. She is a mother to Autumn (11) and Jay'ceon (5).**

**“** Becoming a homeowner would mean so much to me and my family. It would give us a place we can truly call home. I first learned about Habitat through a friend who is an existing Habitat homeowner. After visiting their house, I was impressed by the quality and the spacious layout, which inspired me to learn more about the program for myself.

Right now, we live in a three-bedroom townhome and are living paycheck to paycheck. While we are close to family, we need a space where we can grow and feel secure.

Our current home has very thin walls, and we constantly worry about noise complaints if the kids are too loud. Having our own home would give them the freedom to play and enjoy a yard without restrictions. I look forward to creating a warm environment where we can have weekly family fun nights – playing games, watching movies, trying TikTok challenges, and exploring new activities together. Owning a home will not only provide stability but also become a lasting asset for my children as they grow older. **”**

*“I enjoy cooking and the first meal I will make in our new home is steak and potatoes.”*
